INTRODUCTION

The beauty of the Riva 70 Dolce Vita is at its ideal, suitable for both long cruises to Navigation summer size, often along the coast . The interior design , refined in every detail , allows intelligent use of all available space . Its exterior is elegant, almost low. It looks great and its low center of gravity makes handling easy and accurate.

Aft is a large bathing platform with teak deck , which can easily accommodate a large tender or perhaps a jet- powered dinghy . To starboard side has a ladder to facilitate taking a discreet bathroom at any time.

Access to the main deck is through a gateway hydraulic control mounted on the stern of the boat and maneuvered with remote control. The fly-bridge is exceptionally broad. It has a magnificent wooden table, around which they can sit up to 6 people comfortably.
